Executive

13 October 1949

General Counsel

25X1A

Dual employment

You will recall the memorandum of 17 March mentioned by Col. [redacted] in the attached paper. As a result of this authority, an OSO representative queried me informally about this case. I stated that it seemed a proper proposal but suggested that in order to be completely clear, they might submit it for appropriate approval.

In accordance with my discussion with you on this subject, it was realized that certain situations would arise which were not within the contemplation of the ban stated in the subject memorandum. I believe this is one of them. There is no dual compensation problem, the arrangement was made with the full knowledge of the appropriate superior officers, and I know of no general policy objection.

So far as we are concerned, therefore, word could be returned to proceed with this case as not within the specific provisions of the subject memorandum, without formal submission to the Director. We still feel, however, that each case of this nature should be submitted in this form for review.
